REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is the inclusion of positioning the generator/trolling device in a first orientation and supplying electric power thereto causes the propeller to turn and serve as a trolling motor and positioning the generator/trolling device in a second orientation and powering the main engine causing water to flow over the propeller so that it turns and recharges the battery in combination with the other claimed limitations.

2. The following changes to the drawings have been approved by the examiner. In the drawings, the main engine and the battery must be shown. In order to avoid abandonment of the application, applicant must make these drawing changes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
